Dear Sir,

RE: Submitted an older version of the specifications please substitute

Dear Sir,

I have on the 30 March 2000 sent you a NON-Provisional Application under the following

Title:

Computer System and Method for conduction an electronic financial asset auction over computer network.

This is actually a follow-up to my Provisional application of the same title which was submitted to you on the 3 March 2000.

Subsequently on the 2 April 2000, I found out that I have mistakenly sent the NON-provisional Application using an older specification copy which contain some mistakes.

This error is regrettable and I have enclosed here the final good copy. As proof that this is not an after thought or addition or amendments etc, this copy is exactly the same copy as I sent previously under the Provisional application. Therefore being of the same copy and substance it should be able to rely on the filing date set above.

I hope you will disregard the specifications as included in the NON-Provisional application as it is an older version and was sent mistakenly. Please substitute this copy instead or as you may wish to rely on the Provisional Application's specifications. Both of them are the same copy. I have included the Utility Patent Application Transmittal (copy) that was sent on the 30th March. If you have further queries please contact me at khkwan@yahoo.com

Please note: ALL PAYMENT HAS BEEN INCLUDED IN ABOVE SUBMISSION DATED 30 March 2000

Thank you and regards

Khai Hee Kwan
